PROJECTS

Boardgame Empire

[\[GitHub\]](#) | [\[Live Site\]](#)

An ecommerce site for a retailer with Stripe and Amazon Web Services (AWS) integration.

Esports Dictionary

[\[GitHub\]](#) | [\[Live Site\]](#)

A repository of user submitted definitions for terms related to esports with a custom built rating system and integration with MongoDB and Flask.

Delish TV

[\[GitHub\]](#) | [\[Live Site\]](#)

A Netflix companion site for in-house reality food shows, which utilises Google Maps API to highlight locations and provide further information.

Jenny's Kitchen

[\[GitHub\]](#) | [\[Live Site\]](#)

An informative site for a bakery to provide customers with details about opening hours, menu options, and allergens, designed with Bootstrap.

PREVIOUS WORK EXPERIENCE

Boards.ie – Community Manager

October 2016 - Present

- Developed SQL queries to track metrics of top forums per month, metrics of particular forums of key interest, and user activity in their first month of membership.

- Tested newly developed features and documented any unexpected behaviour on Trello, outlining steps to recreate issue.
- Assisted users with technical and other issues with the site.
- Investigated reported bugs and communicated ongoing issues to development team.
- Managed the introduction of GDPR, assisting with the construction of Boards.ie's policy and communication around changes.

Bottletop Media – Tech Editor

December 2011 – September 2016

- Created content related to tech news, previews of new devices and reviews of same.
- Represented company at domestic and international tech and gaming events.
- Curated and edited content from other staff writers for a monthly magazine and publications released on behalf of corporate clients.

EDUCATION

Code Institute – Fullstack Web Development

December 2019 – December 2020

Currently awaiting final results of course, which had a strong focus on mobile-first design. Topics covered included basic HTML and CSS, including the use of frameworks, JavaScript and JQuery, Python, and database management.

University of Limerick – Masters in Journalism

September 2010 – September 2011

Achieved a first class honours in Masters of Journalism, which included topics such as sub-editing, investigative journalism, and a strong focus on news and feature writing. My thesis included an academic piece analysing how Twitter is used by newspapers in Ireland. I also wrote a series of features regarding the videogame industry.

University of Limerick – Bachelor of Business Studies

September 2004 – August 2008

Achieved an upper second class honours with a marketing major and entrepreneurship minor.
